Portfolio

PERSONAL PROFILE

A young recent graduate who is looking forward to show all his programming skills. Specialized in video game development using Unity, C++ and C#.

LANGUAGE

Spanish -> Native

English -> Fluent (C1)

SKILLS

- C++
- C#
- Unreal
- Python
- Scrum
- Unity
- Java
- Javascript
- Lua
- Git

Andrés de la Cuesta

Programmer

Specialized in Game Development

EDUCATION

Videogame Development degree

Complutense University of Madrid | 2018-2022

Unreal Engine 5 C++ Developer course

Udemy | May 2023

SQL database course

Udemy | June 2023

Informatics Engineering degree

Carlos III University of Madrid | 2017-2018

FEATURED PROYECTS

Procedural generation of ecosystems and evolution of living beings

- Bachelor's Degree Final Project done by a team of 6.
- Best BSC presented at the Spanish Videogame Congress 2022.
- Developed in C#, based on data.
- Procedural generation of a terrain and creatures.
- Simulation and evolution of the creatures.
